“ *Although we were Kemper cousins, Gary and I never met but I will always cherish our online friendship. I had hoped he and his family would visit Pennsylvania one of these years because I wanted to meet this man who researched and published a book that will be passed down through generations of Kemper descendants. The work he put into the family history and the Kemper website is remarkable. I enjoyed our email correspondence concerning our ideas and speculations of our ancestors. To Chelfre, Patience and Gary's family I extend my sympathy and prayers as you continue through life with your special memories of Gary.*

“ *I knew Gary when I was working at AIM. Gary was a wonderful man; very talented and always a pleasure to work with. He will be missed. My condolences go out to his family.*

“ I worked at AIM back when Gary was there. I know that many people knew him for his remarkable talents in woodworking, but his talents went well beyond that. I remember that he loved the sound of a harpsichord so much that, talented as he was, decided to build one for himself. Perhaps some harpsichord music at his memorial/funeral?
