“ Jayme was an original. From day one after I met her it was phenomenal. She loved life, her family, omg the grandkids...she loved me and Shonda. I will truly miss her laughs. She was very thoughtful of people. Truly a very caring person of humamity. She had the utmost affection for Lola (her) dog. She cared for her like it was her child. We had some fun times together. I am grateful to have known her. My heart goes out to Dayna and Johnathan and their children. She always talked about her family and she loved all of them. She loved East Texas and wished that she had moved here sooner. I have very fond memories of Jamz and think of her often. I have lost a friend for sure. May she rest in peace. Farewell my dearest friend.

“ I would like to express my condolences for the family's loss of Jayme. I was there the day before we were talking. She was telling me about her Mom and her love of ballroom dancing. She said How beautiful she was in her gowns. Her favorite picture was one of her Mom in a blue and green gown. She said she looked so beautiful. She went on to talk about all the different surgeries she had coming up. She didn't understand why the Lord still kept her here. She said she was ready to go when he was ready. Her faith in God was strong. She said she was just a country girl. She had a big heart. She said her prayers were that all of her family would accept and believe in God. She would pray for each one daily. I wish I would have known her longer. May she Rest In Peace.
