“ Bobby was an enigma, his quite unassuming manner coupled with his soft speech was so disarming, and completely belied his amazing intelligence.
When presented with a problem that was puzzling several people, Bobby would interject in a completely nonchalant questioning manner, "maybe if we looked at wiring diagram 557643". Guess what there it was, the answer. Always willing to help, quick to say hi and inquire how are you doing, he will be missed by many.##imported-begin##Alphonse Boulanger##imported-end##

“ Bobby was a great friend and coworker. He was well liked by all. He was the kind of person that could handle any situation and take it all in stride, nothing ever got under his skin. He had great intellect and an incredible memory. On more than one occasion Bobby helped me find solutions to challenging problems, he would assist anyone who solicited his help. Bobby was very soft spoken, but when he had something to say people listened. He will be sorely missed by all that knew him.##imported-begin##Brannon L. McEvers##imported-end##

“ Bobby and I started work at San Onofre within a month of each other. I always admired him. He was a hard worker and had a memory I could only envy. He almost always knew where the parts were or which was the correct diagram. And when he didn't know he would find it quickly and never forgot to find me to give me the information I was looking for.

I will miss him.##imported-begin##Eric Gordon##imported-end##

“ Bobby was a mentor and a friend to me and many others here at Southern California Edison.

He was well known here at SCE for his great memory and his composure during the hectic times. Bobby had a way of breaking down complicated problems into the simplest solutions. He was always willing to help, no matter how busy he was.##imported-begin##James Nixon##imported-end##
