“ While my father was hospitalized in Mother France's Hospital in Tyler Tx in 1987 Shelby helped me out. I had taken my mother to Luby's Cafeteria for lunch. When it came time to leave I could not find my keys. I had locked them in the van. Mother was trying to remember people she knew living in the area. She remembered Shelby. I looked in the phonebook and found him. I called and his wife answered. I explained our predicament and needed someone to go to the hospital to get the extra set of keys from my husband and bring them to me. I had no idea he was in the field working. She called him in and he said he could do it. I thought he was very close but not so. He had to shower, and drive several miles to get to our location. I may have met him as a child but I moved away from home after graduation. He was the most gracious man and came to see my father on several occasions after he returned home. I will never forget this rescue. I never thought to call a locksmith.
